THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVEALATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. It is reported that (since December 1951) the aluminum works of Tornanádaska (D 92), Pestszentlőrinc (H 61), and Székesfehérvár (Z 00) are producing various parts for Russian rockets.
2. The chief production is aluminum shells, of hard aluminum 8 millimeters thick. They are 3 meters long, about 1 meter in diameter, and run to a point at one end.
3. These metal cases are packed in wooden boxes. They are loaded under the supervision of Russian engineers and are transported under Russian guard. Recently a car of one of these transports had an accident in the station at Nyíregyháza (K 55) and Russian workers were called up to effect the transloading of its content.

Comment: This report, coming from [] seems to confirm previous information [] concerning the manufacture of guided-missile parts in Hungary. 25X1
